About the Program

This 3-month hybrid program is an initiative under the Gram Arogya Foundation Education Program – GAF Careers, focused on preparing youth for impactful careers in rural healthcare. Combining online learning with field-based experience, the program equips participants with practical public health skills, digital health knowledge, and hands-on exposure to community-based challenges. Through interdisciplinary learning, data-driven approaches, and real-world projects, GAF Careers empowers students to become future-ready professionals driving change in India's rural health ecosystem.

Career Outcomes

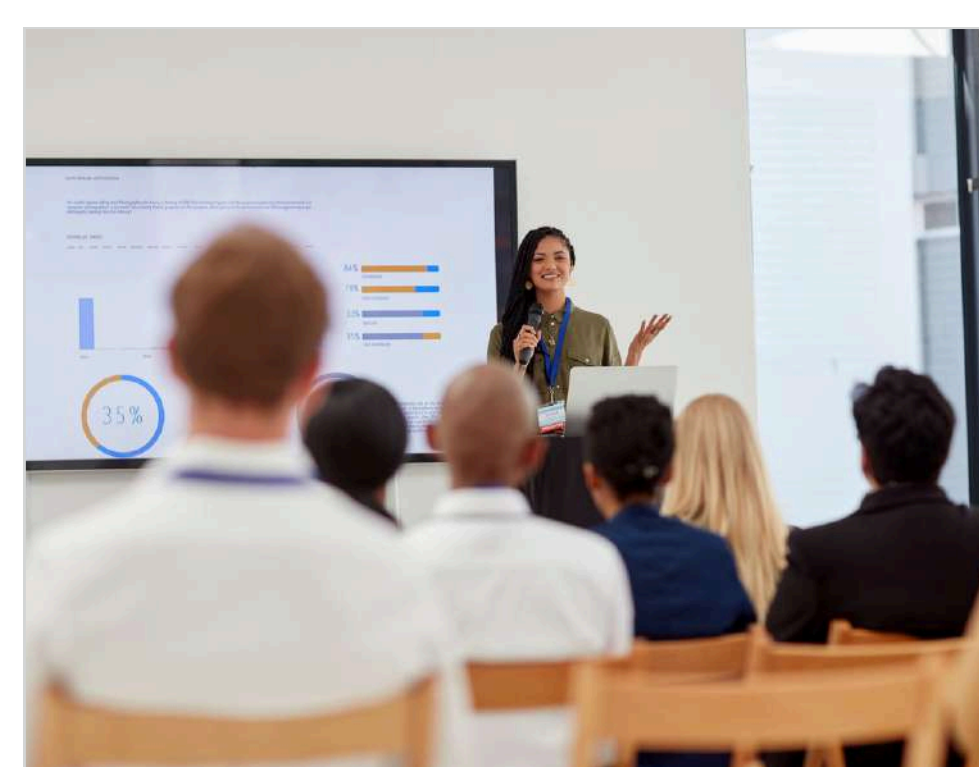

01

Skill Building for Employability : Gain essential public health skills and strengthen teamwork and communication.

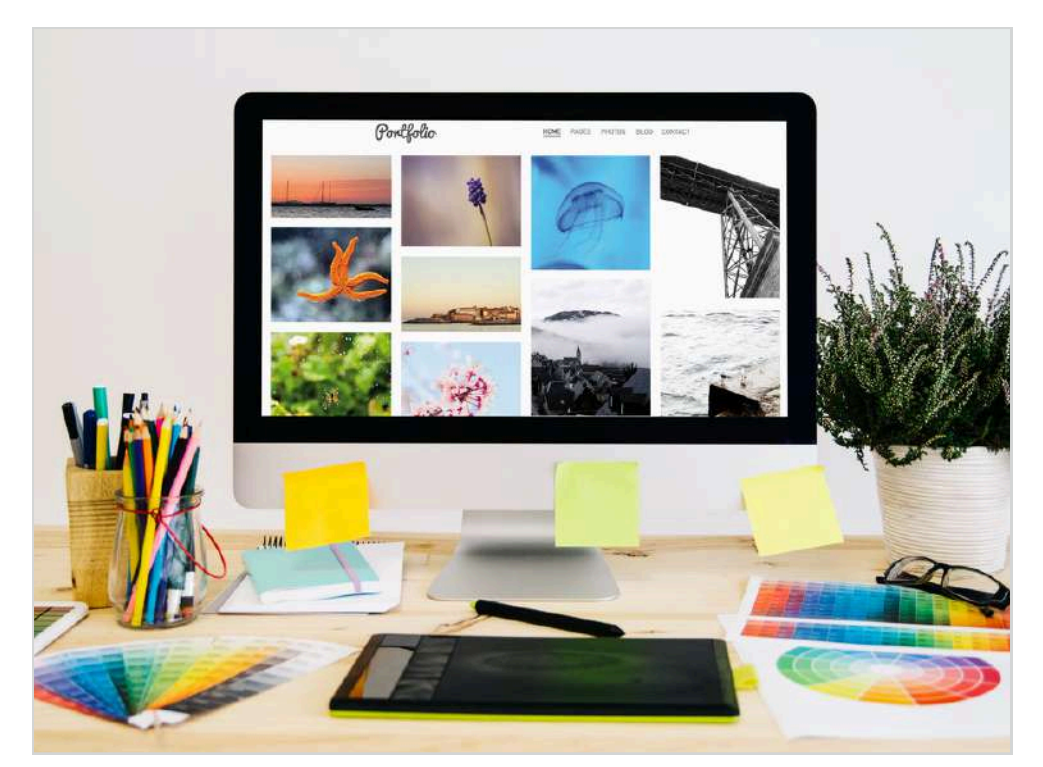

02

Hands-On Experience: Work on real-world projects through fieldwork and community-based research.

03

Communication & Teamwork : Strengthen skills in interprofessional collaboration and public health communication.

04

Career Readiness Tools : Build a digital portfolio to showcase your work and boost career prospects.

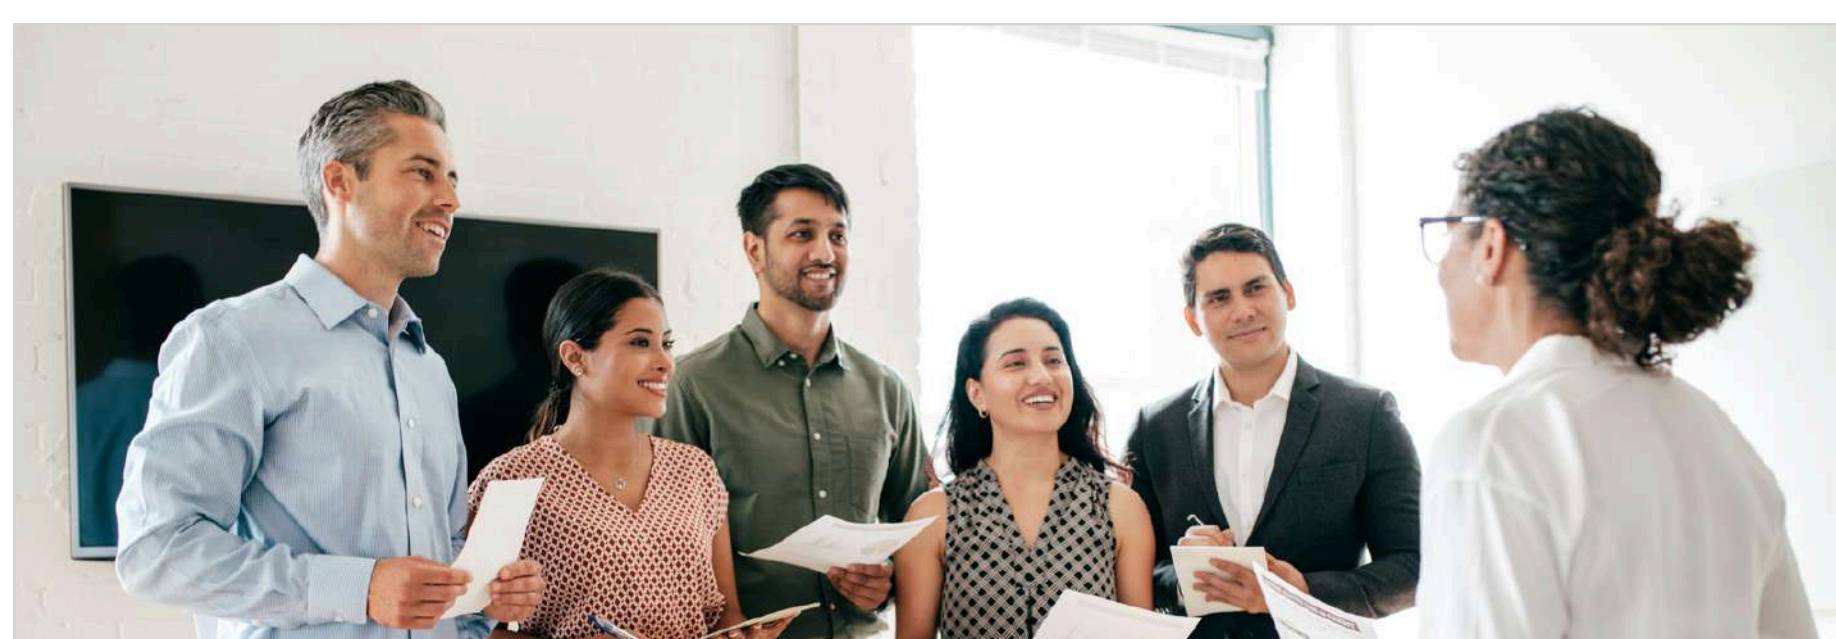

Career Outcomes

Building Competence, Confidence, and Career Readiness

01 Skill Building for Employability

- Gain foundational knowledge in public health systems and healthcare delivery.
- Understand the social determinants of health in rural and underserved areas.
- Develop critical thinking and problem-solving skills.
- Learn systems-based approaches to public health challenges.
- Build competencies relevant to roles in NGOs, government, and development sectors.

03 Communication & Teamwork

- Improve interpersonal and public health communication skills.
- Engage in team-based learning and peer collaboration.
- Learn to work across disciplines and sectors through simulated and real scenarios.
- Build leadership and stakeholder engagement capacity.
- Strengthen confidence for community interactions and group projects.

02 Hands-On Experience

- Participate in community-based field visits and real-world projects.
- Apply classroom learning to ground-level public health issues.
- Work with rural populations to understand healthcare needs and solutions.
- Practice participatory research and intervention planning.
- Develop practical experience in local health program implementation.

04 Career Readiness Tools

- Create a personalized digital portfolio highlighting key learnings and projects.
- Receive guidance on resume building and professional presentation.
- Showcase data analysis, visualization, and storytelling work.
- Access mentorship for career planning and academic progression.
- Prepare for internships, fellowships, or job opportunities in the health sector.

Accelerated Curriculum Structure

Our 12-Week Intensive Program with Onsite Training is structured to maximize learning and practical experience:

01 Weeks 1–4: Foundation & Core Competencies (Hybrid)

Blend of online sessions and in-person workshops covering healthcare systems, public health basics, teamwork, and communication.

02 Weeks 5–6: Field Immersion & Community Engagement (Offline)

On-ground exposure through community-based projects and participatory field activities in rural or semi-urban settings.

03 Weeks 9–12: Capstone & Career Preparation (Hybrid)

Collaborative project work, digital portfolio creation, and career guidance through both online mentorship and offline presentations.

Training Schedule & Format

Our 3-month hybrid program blends online sessions, in-person workshops, and community-based fieldwork. The schedule is designed to build core competencies, provide hands-on experience, and prepare you for real-world impact in rural healthcare.

Month	Saturday (Soft Skills)	Sunday (Technical Skills)	Duration
Week 1	Communication Skills	Health Policy & Health Delivery System	2 Days
Week 2	Digital Portfolio Creation	Essentials of Epidemiology (Basics)	2 Days
Week 3	Email Writing Workshop	Demography (Basics)	2 Days
Week 4	CV Building	Organizational Behaviour & Marketing Managemen	2 Days
Week 5	Report Writing	Human Resource Management	2 Days
Week 6	Canva: Graphic Design for Social Impact	National Health Program	2 Days
Week 7	Personal Brand Building	Research Methods	2 Days
Week 8	LinkedIn Workshop	NGO Management & CSR	2 Days
Week 9	Communication Skills (Advanced)	Program Implementation, Monitoring & Evaluation	2 Days
Week 10	Digital Portfolio (Advanced)	Digital Health	2 Days
Week 11	CV + Email Practice Lab	Public Health Emergency Management	2 Days
Week 12	Portfolio Review + Presentations	Health Insurance & Certification Day	2 Days

Our training approach is grounded in experiential learning, community engagement, and real-world application. Participants will benefit from expert-led sessions, hands-on fieldwork, and mentorship to ensure a deep understanding of rural healthcare challenges. Whether online or in-person, every module is designed to build critical skills, foster collaboration, and prepare you for a purpose-driven career in public health. By the end of the program, you'll be equipped to contribute meaningfully to grassroots healthcare systems and initiatives.

Training Methods

Our hybrid format combines interactive online modules, immersive field-based learning, and collaborative team projects. Sessions are led by experienced mentors and public health professionals to ensure learning is applied, impactful, and future-focused.

Field Visit Theme Breakdown

Field Visit	Theme	Topics Covered
Visit 1	Primary Healthcare System + Demography	Health Policy & Delivery, Epidemiology, Demography
Visit 2	Program Implementation + Community Org.	National Health Program, NGO Management & CSR, Organizational Behaviour
Visit 3	Digital & Emergency Public Health	Digital Health, Public Health Emergency, Health Insurance
Visit 4	Evaluation + Community Research & Surveys	PM&E, Research Methods

Benefits of This Grouped Visit Plan:

- Saves time and logistics by condensing into 4 days.
- Still gives practical exposure to all key modules.
- Works smoothly with your 12-member team, allowing rotation and specialization.

Certification Day – Offline Gathering after Week 12 (all batches together)
